

## **Press release**

Turmeric extract for 'golden milk', papaya or lavender essence for trendy drinks, special herb blends for boiled sweets, antioxidative rosemary extract for fine sausage products or a wide variety of fruit extracts for high-quality ice cream: these are just some examples from the extensive range provided by Nutramaxx. It's not just its inventiveness and quality awareness that make this young and ambitious company from Hamburg stand out. Sustainability and environmental awareness also play an ever greater role in the company's philosophy: So far, it is the only company in the industry to recently start offering extracts with the 'Naturland' eco-label. To showcase the company and its products, Nutramaxx will be exhibiting for the first time at the BIOFach trade show being held in Nuremberg from 13 to 16 February 2019 (Hall 6, Stand B, 6-415). "We worked hard to get the Naturland certification and are proud to be able to offer raw materials that meet its criteria," says Managing Director Michael Behr.
