

The AQUASILICE Activated charcoal toothpaste is now Organic certified!

With the aim of offering ever more natural products, Abiocom, a company specializing in the development and distribution of ecological, natural and organic products, has reviewed the composition of its activated charcoal Aquasilice toothpaste, passing it under the organic certification according to the COSMOS standard.

Created in 2008, Aquasilice is a French brand of food supplements, functional gels and silicon-based cosmetics.

The charcoal toothpaste is the actual trend and a must-have in every bathroom. Known for its whitening action, activated charcoal will help your smile to regain its radiance!

Most whitening toothpastes contain abrasive particles that chemically whiten teeth and damage enamel.

Aquasilice has created an organic and soft formula based on silicon and hyaluronic acid, without abrasive agents. It is also free of titanium dioxide, paraben, PEG, propylene glycol, phenoxyethanol, nanoparticle, synthetic dye and fluorine.

This toothpaste now certified organic and Vegan is ideal to protect your teeth and gums and maintain a healthy oral hygiene.

It also have a mint taste for a fresh breath and a small size to carry it everywhere!

This product is distributed exclusively in dietary and organic stores.

About Abiocom

Founded 12 years ago, Abiocom is a company specialized in the development and distribution of natural, ecological and organic products from a network of 1,600 organic stores.

Based near Toulouse (France), Abiocom is experiencing strong growth in the order of 20% of its turnover, which exceeded 6 million euros in 2018.

The product portfolio is exclusively distributed in specialized stores through six own brands: Aquasilice, Bio4you, Biorelax, Buvard d'Encens, Nutrivie, Tisanes & Traditions.

Abiocom, your partner by nature!
