DECLEVA'S  
ALPENFISCH  
MARIAZELL

Crystal clear, cold mountain water - that is the source of life for our Mariazeller char and trout! In the middle of the **Alpine Hochschwab massif**, water flows into our organic-certified ponds.

Fresh and natural, exactly this water supplies the Viennese households with its unique quality. An **6.5 °C cold elixir of life**, where our fish find the ideal conditions for their slow and healthy growth.

Because "Good things take a while" - and an excellent quality fish also needs his time! Our char and trout have **2.5 to 3 years to grow** with certified organic food and nutrients from natural stream water, until they finally reach their catch size and are distinguished with an incomparable, wholesome taste.

DECLEVA'S organic fish is a great, **culinary catch for all health-conscious fish gourmets!**
