

Another aspect that makes Mani Foods stand out among the competition is that we are making a conscious effort to implement localized production, which is not only good for the environment but beneficial to the bottom line too. Our factory is strategically located in the heart of the Kalamata olives region. The olive groves where our Kalamata olives come from, are only a stone's throw away from the vineyards where our Red Wine Vinegar is produced from, and from the groves where our Koroneiki variety Extra Virgin Olive Oil comes from. The final ingredient of the marinade is natural sea salt that is of superior quality and originates in the Salt Flats of Messolonghi Lagoon. We are keeping it local in a globalized market!
